

RASMINA A

B.Tech Information Technology | Java • Python • JavaScript • React • AI/ML

[Phone] | [Email] | LinkedIn: [linkedin.com/in/rasmina-a-733645326/](https://www.linkedin.com/in/rasmina-a-733645326/) | GitHub: github.com/RasminaA | Portfolio: rasminaa.github.io/Portfolio/

Career Objective

Final-year B.Tech Information Technology student seeking an entry-level software role in Java development, front-end development, or Linux/open-source engineering. Strong foundation in Java, Python, JavaScript, React, HTML/CSS, OOP and problem solving, with hands-on experience building web applications and machine-learning projects. Interested in developing reliable, user-focused software and growing toward AI engineering.

Education

B.Tech in Information Technology	2023–2027
Government Engineering College Idukki, Kerala Technological University	CGPA: 7.64/10

Technical Skills

Languages: Java, Python, JavaScript, HTML5, CSS3
Core: OOP, DSA (learning), Problem Solving

Web: React (Basic), Firebase
AI/Data: Pandas, NumPy, Scikit-learn, XGBoost, ML fundamentals

Tools: Git, GitHub, VS Code, Google Colab

Systems: Linux fundamentals, Bash scripting fundamentals

Projects

KTU Activity Point Management System | React, Firebase

- Developed a web-based system concept for managing student activity points, with event discovery, calendar, student interests, notifications and reporting features.

House Price Prediction | Python, Pandas, Scikit-learn, XGBoost

- Built regression models for house-price prediction; XGBoost achieved an R^2 of 0.9036 on the project dataset.

Loan Repayment Probability Prediction | Python, Machine Learning

- Built a machine-learning workflow to predict loan repayment probability, including data preparation, model training and evaluation.

NoteItUp | HTML, CSS, JavaScript

- Created a note-storing web application with a simple user-focused interface and front-end functionality.

Internship / Practical Experience

IntrnForte — Artificial Intelligence with ChatGPT / Data Science | 2025–2026

- Completed practical learning in AI and data science fundamentals with hands-on machine-learning projects, including house-price prediction, loan repayment prediction and image-classification work.

Leadership & Activities

- IEEE Student Branch, GEC Idukki — Report Lead / Documentation Head; contributed to event documentation and annual reporting.
- B.Tech IT student preparing for software development and AI-oriented roles; actively practicing Java, Python, DSA and web development.

Relevant Strengths

Problem solving • Team communication • Quick learning • Technical documentation • Adaptability • Interest in software development, open source and AI
